This paper provides evidence on the types of accounts that reveal earnings management activities. We build on Burgstahler and Dichev's (1997) evidence of earnings management to avoid an earnings decline and Phillips et al.'s (2003) findings that deferred tax expense (DTE) can be used to detect such earnings management.

Decomposing Changes in Deferred Tax Assets and Liabilities ...

Standard methods for calculating cartel-damage rely on data of prices charged and quantity sold. Such data may not easily be available. In this paper, it is shown that accounting data can be used for computing a lower bound for cartel-damage. Previous literature indicates that economic profits can hardly be inferred from accounting data.

Using accounting data in cartel damage calculations ...
