Agile SAP: Introducing flexibility, transparency and speed ...

The use of Agile methods to implement SAP is a relatively new approach and one that has proven to be very successful. Agile techniques can greatly

improve your SAP implementations, reduce risks, and help you bring your projects in on schedule and within budget.

Agile SAP: Introducing flexibility, transparency and speed ...

An Agile approach favors working software over documentation. What this really means is that we need to avoid documentation for documentation sake. In SAP, we typically create a high number of documents, and not all documents have direct value to the customer. In traditional SAP projects, customers wait a long time before seeing working software.
