### Artisanal Fishing Sustainable Development And

Artisanal fishing is defined by NGOs as small scale, coastal and human level fishing using sustainable essentially static techniques (nets, pots, lines) having a little or no impact on natural ressources.

### Artisanal fishing - M&C ASIA

Hundreds of millions of people around the world rely on artisanal fisheries to live. Artisanal fishing is critically important for not only food, but for jobs, income, nutrition, food security, sustainable livelihoods, and poverty alleviation as well. Artisanal fisheries are the predominant form of fisheries in "tropical developing countries" such as Nigeria.

### Artisanal fishing - Wikipedia

The areas of fishing grounds are 376 km 2 of lagoon and 832 km 2 off-lagoon (Samboo & Mauree, 1988). The Government prioritizes sustainable artisanal fishery as this sector is vital in providing employment opportunities and protein to some 4000 households in the coastal regions (Sweenarain, 2012). The artisanal fishery catch in 2011 was estimated at 556 tonnes from the lagoon and 336 tonnes from off-lagoon (a total of 892 tonnes).
