### Delphi Guide

Delphi, a brief history of the "Navel of the Earth" In ancient Greek history and mythology, Delphi was referred to as the geographical center of the world, its navel. According to the ancient Greek myth, Zeus set two eagles free to find the center of the world. They soared through the skies westward and eastward and their paths crossed in Delphi.

### A Beginner's Guide to Delphi Programming - ThoughtCo

For the ancient Greeks, Delphi (from delphis, womb) marked the very centre of the world, a sacred space where human beings could communicate directly with the gods. To this day, the home of the all-seeing oracle retains a magical sense of standing apart, not least because the ancient site stands in beautifully preserved splendour on a pristine mountainside 750m east of (and out of sight of) the modern village.
