IMO, International Code of Signals 2005 Ed. | eBay

The system of international maritime signal flags is a way of representing individual letters of the alphabet in signals to or from ships. It is a component of the International Code of Signals. Nautical signal flags can be used in various methods: Each flag spells out a letter of an alphabetic message.

International Code of Signals, 2005 Edition (IA994E)

Code was completed in 1897 and was distributed to all maritime powers. This edition of the International Code of Signals, however, did not stand the test of World War I. The International Radiotelegraph Conference at Washington in 1927 considered proposals for a fresh revision of the Code and decided that it should be prepared in seven editorial
