### To Real Analysis

Absolute value of a real number 'a' is denoted by  $|a|$  and is defined as  $-a$  if  $a \leq 0$   $|a| = a$  if  $a \geq 0$  there are few properties of absolute value which can be proved very easily here I'll just write them I won't prove them you can ask me if you are not able to prove them you ...

## PDF Introduction To Real Analysis Solutions Manual

The study of real analysis is indispensable for a prospective graduate student of pure or applied mathematics. It also has great value for any student who wishes to go beyond the routine manipulations of formulas because it develops the ability to think deductively, analyze mathematical situations and extend ideas to new contexts.
