The Line 6 POD XT, marketed as the "Ultimate Tone for Guitar," is a comprehensive modeler, an approximation of everything under the sun from the birth of rock and roll to 2002—and the POD with which I've had the most experience. They've made updates and variants, but for our purposes, we're going to discuss the original POD XT.

Although Line 6 has released a new line of PODs (the HD series), the POD X3 still has some useful aspects. I really like the Matchless, Orange, Budda, etc. amp sims in the X3, but they are missing in the HD series. Hopefully, Line 6 updates the firmware of the HD series in the future with more amp models.
