Instead of “it will rain sometime today,” why not get weather forecasts more like “heavy rain starting in five minutes, and lasting for 45 minutes?” Weather apps and websites are a dime a dozen. Most of them tell you whether it’ll be sunny, cloudy, or rainy on any given day. But Dark Sky offers something a bit different.

For some, rain is a direct association to its common theme of gloom and sadness, but a lot of people are immediately happier and can completely alter their mood for the rest of the day. I wanted to go further into the reasons behind this difference and see how the mind has been discovered alongside the world’s fickle weather patterns.

Zeus, who hated getting mad, forgave man and gave them rain. The system was far from perfect, and because there was no sign that the rain was coming, man did not know when to store water. Prometheus, who made man, spoke to his brother Epimetheus. "Will you join me in doing something for man, so that he will know when rain will come?"
