How to Troubleshoot PostgreSQL Database Connectivity

...

Some Windows users can also try stopping the service manually by selecting Start -> Programs -> PostgreSQL -> Stop Service, but this option is not always available. If you are able to stop the PostgreSQL service using this method, you can attempt to search your computer for the postmaster.pid file in /Program Files/PostgreSQL/X.X/data, if this file is found you can safely delete it then restart your computer. This will often, but not always solve the problem.
