variations or levels of each personality type. If we add each level as its own archetype, the Enneagram actually contains a list of 81 archetypes. Plus, each type has wings and variants, which easily quadruples the number of potential archetypes.

### **Archetypes List: The Ultimate List of Over 325 Archetypes**

While the personal development books I listed were practical, most of my selections for the best psychology books are theoretical. (Self-Therapy is the exception. And certain sections in KWML and The Wisdom of the Enneagram are practical too.) Theoretical books provide us with a greater understanding; they help increase our cognition.
